## RECOMMENDATION LETTER

**Dear Sir/Madam,**

It is with much pleasure that we write to recommend the services of “**Kervan Logistics**” (I.E. **Ýükli Kerwen and I.E. Bagtyýar ŞADYÝEW**) – consulting, logistics and transportation company.

Our company branches in Turkmenistan have been working with “Kervan Logistics” in several industrial construction projects since its establishment in 2017. We entirely outsourced all of our logistics and customs clearance operations to them from the start and have been fully satisfied with their performance.

The main areas of our partnership are logistics and customs clearance consulting, and the experience showed that Kervan Logistics (I.E. Ýükli Kerwen and I.E. Bagtyýar ŞADYÝEW) is a reliable partner. They have represented our interests in various fields such as: preparation and control of shipping documents as per contractual demands, controlling the process and documentation of cargo delivery on door-to-door basis, checking engineering drawings of heavy lift operations, supervising heavy and oversize equipment loading, unloading and inland transportation, preparation of documents for chemicals’ permit and transportation in accordance with country rules, consulting in registration and calibration of metering devices in Turkmenistan, and in case of necessity calibrating them abroad. The team presented their professionalism in all these areas. Special reference shall be given to the company’s director, Mr. Bahtiyar Shadyev, who is responsible, professional and courteous person and to whom we can entrust the most difficult tasks.

The services of Kervan Logistics (I.E. Ýükli Kerwen and I.E. Bagtyýar ŞADYÝEW) are reasonably priced and they always do more than what we expect of them. We highly recommend the Company for anyone seeking professional services in logistics and customs clearance in the territory of Turkmenistan.

**Best regards,**

**Mehmet Kayalar**  
**Managing Director**
